## Profile

I am an ambitious person with an IT background and some years of experience in various fields such as culture advisor and office administrator. Over these years, I have learnt to be communicative, structured and targeted.

## Education

### 2019-current

#### Diploma in Full Stack Development at Code Institute

As a full stack developer, we pretty much covered the development of both front-end and back-end portions of an application.

#### Covered Subjects

- Front-end: HTML, JavaScript, JQuery, CSS, C#
- Back-end: Python, My SQL, Django
- Data Centric Development

### 2013-2015

#### Bachelor in product development and integrative technology at Kea

I primarily used different methodologies to implement a project like Scrum and Kanban methodologies, by which we can change way of working from push to pull system.

#### Achieved projects

- **Booking and Tracking System-** A smart online reservation, tracking and monitoring system for DTU cars has implemented.
- **Kanban Methodologies-** The project has implemented using the Kanban methodology.
- **Agile system** – the pro and cons of the old way of implementing a project has replaced with a new way of handling a project using agile system.

### 2011-2013

#### Academic Professional Degree in IT Networking at Copenhagen School of Design and Technology (Kea)

Working on Cisco products like router and switches, Windows servers  
My AP project was to design a network infrastructure, including the internal company's data network connected to the Internet.

## Work Experience

<b>2015</b>	Project consulting member at Trampoline house, practical training.
<b>2013</b>	IT support at Relation Technologies, practical training.
<b>2008-2010</b>	Social coordinator and culture advisor PRT, Afghanistan.
<b>Programming, IT and Designing Skills</b>	

- **Programming skills:**  
HTML, CSS, Java, C#, Django, Python, MySQL.
- **IT Networking infrastructure :**  
VLAN, Switch, Router configuration, Windows Server, Domain, DHCP, FTP.
- **Designing Skills:**  
Adobe Photoshop, U-lead video Studio, premier, CorelDraw and Final Cut Pro

#### Languages

**Dari/Persian:** Native

**English:** Cambridge English course, Advanced English

**Danish:** Finished Dansk Uddannelse (DU2)

#### About Me

I am passionate about learning new things that is why I continued my education. In my spare time, I am doing some extra readings in order to learn more about the new software technologies and Windows Servers that I have not got at school.

I am a talented, ambitious and hardworking individual, with broad skills and experience in programming, IT networking and leading projects. Furthermore, I am adept at handling multiple tasks on a daily basis competently and at working well under pressure. A key strength is communication; building strong relationships with people in order to deliver the best results.

Recently I completed my Full Stack Development Diploma. It shows my capabilities of multi-tasking in daily basis. that beside my full time job, I still am able to improve my career..... this part is not finished yet.
